

8/1/87
Ureano

6 July 1987

MEMORANDUM FOR: C/AG

FROM:

[REDACTED]
D/FBIS

STAT

SUBJECT: RESTON Space

1. As you might have anticipated, C/Prod passed your buck slip note to the front office. I am not sure what conflicting signals you are getting relative to the above subject. To make things clear, let me note that 1) all of FBIS will be moving to Reston and 2) earlier commitments about space sharing will be honored for the period between the move and the completion of [REDACTED]

STAT

2. The point at which the option existed to perhaps delay the total integration of FBIS into Reston passed many months ago. When the question was raised, some were perhaps naively hoping that the move wouldn't happen, others weren't focusing on it as they should have, and others felt they could "tough it out" until [REDACTED] became a reality. Regardless of the reason, the senior management of FBIS chose not to explore the option of delaying the integration into Reston. Plans and/or commitments made as a result of that decision must now be honored. We are clearly in the "tough it out" mode. Therefore, projected increases in staffing levels, whether real or imaginary, will have to be accommodated within your allocated space less any commitment to Production Group.
